These amazing cars have a surprisingly straight forward, affordable service and maintence routine.

Together with Powerstation we are able to offer new workshop facilities including the latest diagnostic tools & software, multiple ramps, Dyno room, waiting area & 4 wheel laser alignment machines
As suppliers of these cars we know them inside and out, so you know its' in experienced hands.

The service intervals are once per year or every 10,000 miles, which ever comes sooner. We also require the engine oil to be changed every 5,000 miles or 6 months.
5,000 Mile services can be carried out by any VAT registered garage. Our Price for this is the same as the 1,000mile service.
Because of the performance the DCCD and mechanical rear diff oil requires a change at the 10,000/yearly service.
Subarus without DCCD (i.e WRX and Forester STI etc) do not require the additional gear oil change until every 30,000miles and will therefore be £86 cheaper

1,000/5,000 miles	
oil	£40.00
filter	£10.19
flush	£5.50
labour	£40
	£95.69

10,000miles
